

Los Serranos

June 18,2018

We have been very excited to have this program at our community. Blair is awesome and the residents just love her. I have noticed how some of the residents have already making a difference and they look forward to the class. I am so exciting for this program and all of the benefits it gives us. There have been several posting on our Facebook giving so many positive comments and encouraging people to come and join in and start to make improvements in themselves

Thank you for all of your hard work in organizing the program at our community. It has been a true pleasure and looking forward to the classes
