Your exercise program at Rancho La Siesta Mobile Home Park community has been met with lots of smiles, cheers (groans) and benefits.

Several residents and their friends have commented on how excited their Doctors were to hear they can enjoy the numerous benefits from Silver Sneakers being presented in their own neighborhood. Several of these same residents have added how much easier doing everyday chores around their homes have become. How they enjoy the camaraderie of their neighbors as well as how quickly and easily your staff can modify each exercise for the abilities of each participant.

During the short time your Silver Sneakers program has been at Rancho La Siesta it has brought many benefits to our residents.
